

Team Number: 109-2

Team Name: Bello

Team Members:

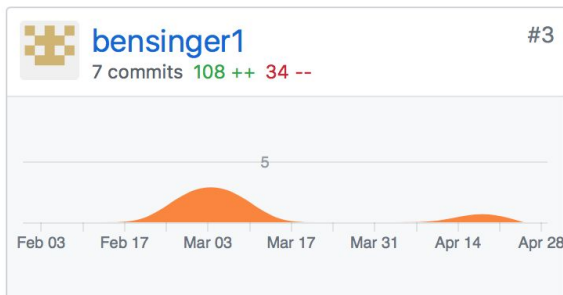

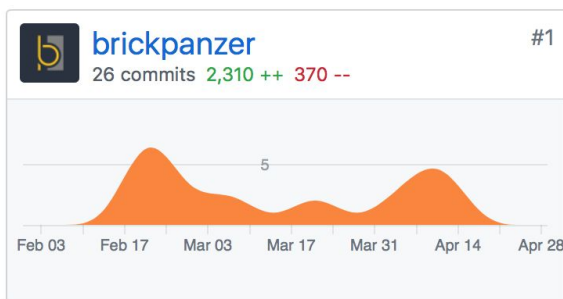

Nikolaas Bender, Johnathan Gossett, Iva Majeticova, Ngozi Nwankwo, Cooper Simpson, Benjamin Singer

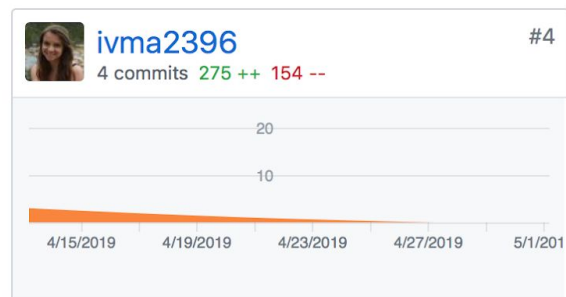

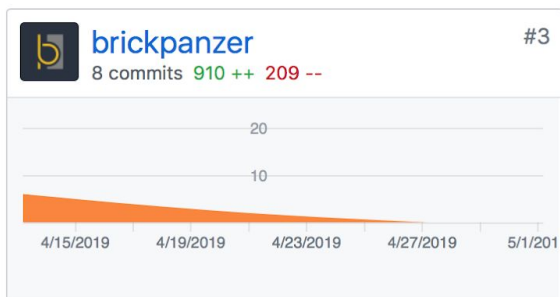

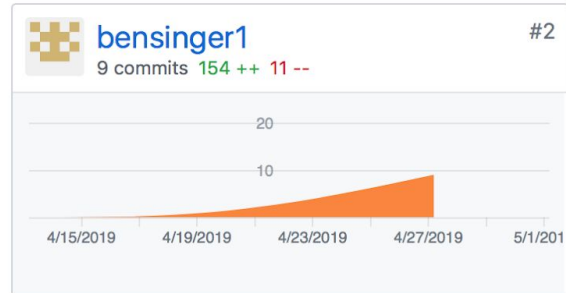

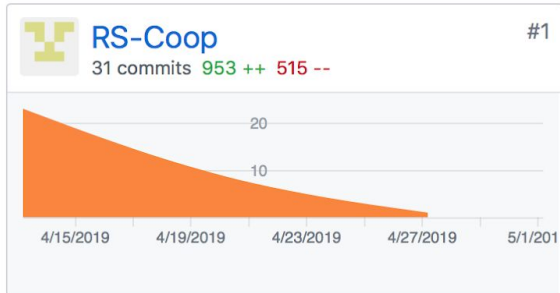

App Title: CoLab

Project Tracker: We did not use any project tracking tool. We just used slack for communication and planned all of our meetings through that. During each weekly meeting, we assessed how far we were, how much was left to do, and how much time we had to do it. That was the full extent of our project tracking.

VCS: We first used: <https://github.com/NikolaasBender/SoftwareDevProject>

Then we used: <https://github.com/NikolaasBender/Co-Lab> (most current version)

Deployment: <http://co-lab-237404.appspot.com>
